

# DISCOVER AN 8-INCH SCREEN FULL OF POSSIBILITIES

ROSEN  
FIT-MUST15

The **FIT-MUST15** is the perfect upgrade for the factory audio system found in select 2015 and up Ford Mustang vehicles. The complete upgrade kit provides a significantly larger 8-inch LCD screen, double the size of the OE factory display. The system also includes the latest in navigation technology utilizing the iGO NEXTGEN platform for onboard turn-by-turn route guidance, HDMI connectivity for smartphone mirroring, and a back-up camera input for safety and convenience. The FIT-MUST15 is designed for easy integration complete with all the hardware, and compatible with the built-in Ford SYNC system.

## ADVANCED FEATURES

**8-INCH DISPLAY** – The system's high resolution 8-inch LCD screen (800 X 480) to provide a bigger picture, accommodate more information, and make it faster and easier to see video and mapping information

**iGO NEXTGEN NAVIGATION** – Harness the power of navigation and always know exactly where you're at with the iGO NEXTGEN navigation platform. The included software provides mapping and turn-by-turn directions to any destination in the country. It offers more than 17 million points of interest (US/Canada), 3D building and topography view modes, and 2D/3D/Smart zoom features for easy to follow graphics

**USER UPDATEABLE MAPPING** – Quickly update to the latest map information available by simply going to [www.naviextras.com](http://www.naviextras.com)

**HDMI CONNECTIVITY** – The built-in HDMI input opens up a world of entertainment capabilities allowing you to connect any portable device with an HDMI output such as an Android smartphone device for mirroring content directly on its display (while parked). The module also includes the MHL to HDMI cable that is compatible with today's most popular smartphones

**REVERSE CAMERA INPUT** – Designed with safety in mind, the system lets you add the convenience of a reverse camera to see what's directly behind you when the car is shifted into reverse

**FORD SYNC SYSTEM RETENTION** – Retains the factory SYNC options including voice control, Bluetooth capabilities, factory SYNC controls, and USB connectivity

**FACTORY LOOK AND FIT** – The system replacement provides the same factory appearance utilizing the factory controls for all the HVAC as well as added integration onto the screen for more control

**OBD2 INFO SCREEN** – The system includes a built-in OBD2 information screen for key status of fire pressure, door and trunk, and parking brake

**EXTENDED WARRANTY** – 3 year/36,000 mile warranty included with FIT modules
